For Exceptional Care...

VCP
Very Caring Professionals
Health Services including but not limited to:

Skilled Nursing Services
• Nursing assessment of patients and patient’s home environmental status
• Diabetic teachings and management
• Care and management of minor to complicated wounds (wet to dry, specialized dressings, wound vac, anodyne therapy)
• Medication teachings, management and services (intravenous antibiotic therapy, hydration therapy)
• Coordination of patient’s care with other disciplines and to their medical doctor as necessary

Physical Therapy Services
• Evaluation and follow-up therapeutic exercises and treatments to help restore muscle function, range of motion, relief of muscle and joint pain, to help attain the optimum level of functioning of each patient we treat. We utilize ultrasound machine, tens units and anodyne therapy.

Speech Therapy Services
• Evaluate and provide treatment for patients with speech and cognitive problems resulting from stroke, accidents or any physical disabilities.

Occupational Therapy Services
• Evaluation and follow-up therapeutic modalities to address patient’s activities of daily living (bathing, dressing, safety teachings)

Home Health Aide Services
• Provide assistance to patients and their families to address personal care in a safe manner.

Respiratory Therapy Services and Medical Supplies/Equipment
• We are in contract with durable medical equipment companies that can provide immediate supplies and equipment for patients in need of oxygen, nebulizer machines, hospital beds, walking canes, wound and diabetic supplies and machines.
